# Steps you can take now to prepare: Schools

- Record all varicella vaccine doses for admissions on the Blue Card or School Information System
- Compile lists of (at least) 6th grade students for 2018-2019 (likely 7th graders in 2019-2020) with no record of a 2nd dose of varicella vaccine – Use for reminders in 2019
- Check CAIR for additional doses not on file
- Check [ShotsForSchool.org](http://ShotsForSchool.org) for resources to use in registration packets for fall admission

# More information...

10. [For admissions on or after July 1, 2019, what is required for a medical exemption to a required immunization?](#)

# Your Questions

**What documentation is needed for a child with a confirmed history of chickenpox disease?**

Chickenpox disease has become uncommon (<1% of children) because of immunization.

Many recent cases have been harder to diagnose.

Parental history of disease by itself is insufficient to meet school requirements.

A physician may use medical exemption documentation for a child who has had physician-confirmed chickenpox disease.

# What do I do with a 7th grader who has not received any doses of DTaP?

- The new (and old) requirements and national recommendations are met by doses given on or after the 7th birthday of:  
**1 Tdap + 2 more of Td or Tdap**
- 3 such doses meet the DTaP requirement for TK/K-12
- 1 or 2 doses of Td vaccine given on or after the 7th birthday can count towards the DTaP requirement.
